

CodeCrafter

NAME: SUZEN KUMAR MOHANTY

EMAIL:SUZENKUMARMOHANTY@GMAIL.COM

PROJECT DATE: 25/10/2025

TECHNOLOGIES USED: WORDPRESS

Introduction

- ▶ • CodeCrafter is a modern technology blog built using WordPress.
- ▶ • Provides tech news, coding tutorials, and industry updates.
- ▶ • Focused on developers, tech learners, and enthusiasts.
- ▶ • Clean UI, responsive design, and SEO-optimized structure.

Project Objectives

- ▶ • Create a tech-focused blogging platform.
- ▶ • Deliver daily updates on software, AI, gadgets, and development.
- ▶ • Provide easy-to-navigate categories and search options.
- ▶ • Improve reading experience through responsive UI.
- ▶ • Build SEO-friendly pages to increase organic traffic.

Key Features

- ▶ • Dynamic homepage with trending posts.
- ▶ • Categories: AI, Web Development, Gadgets, Programming.
- ▶ • SEO-optimized blog articles.
- ▶ • Comment system for user interaction.
- ▶ • Social media sharing.
- ▶ • Fast-loading & mobile-responsive design.

Technology Stack

- ▶ • CMS: WordPress
- ▶ • Theme: Custom/Elementor-based
- ▶ • Plugins: Yoast SEO, WP Super Cache, Jetpack, WPForms
- ▶ • Hosting: Shared/Cloud Hosting
- ▶ • Tools: Google Analytics, Search Console

Design & UI/UX

- ▶ • Minimalistic and modern tech-themed layout.
- ▶ • High readability typography.
- ▶ • Category-based navigation.
- ▶ • Light/Dark mode (optional).
- ▶ • Optimized blog layout for long reads.

Development Workflow

- ▶ 1. Requirement Analysis
- ▶ 2. Wireframing the blog structure
- ▶ 3. Installing WordPress & configuring theme
- ▶ 4. Category creation & blog page designing
- ▶ 5. Plugin integration (SEO, Cache, Forms)
- ▶ 6. Adding initial tech articles
- ▶ 7. Testing (speed, mobile, SEO)
- ▶ 8. Deployment

SEO Optimization

- ▶ • Keyword-focused article writing.
- ▶ • Meta tags, alt tags, and permalinks.
- ▶ • Sitemap and Search Console setup.
- ▶ • Page speed improvement.
- ▶ • Internal linking for better navigation.

Security Measures

- ▶ • SSL Certificate
- ▶ • Security plugins (Wordfence / Jetpack)
- ▶ • Regular backups
- ▶ • Brute force protection
- ▶ • Safe plugin/theme usage

Testing & Deployment

- ▶ • Mobile responsiveness testing
- ▶ • Cross-browser compatibility
- ▶ • Speed optimization tests
- ▶ • Final deployment
- ▶ • Performance monitoring

Conclusion

- ▶ CodeCrafter is a fully functional, responsive, and SEO-optimized
- ▶ technology blog designed for developers and tech learners.
- ▶ It ensures fast performance, engaging content, and easy navigation
- ▶ for a seamless reading and learning experience.
